Graduated with a major in Software Engineering, oriented towards Backend Developer. Knowledgeable in Java, Spring Boot, and RESTful API. Experienced in deploying real-time data processing systems with Apache Kafka, designing databases, and deploying applications using Docker. Eager to participate in backend system development in a professional environment to improve skills and gain practical experience.

WORK EXPERIENCE

Backend Intern

09/2025 – 12/2025

LIFETECH COMPANY

Ho Chi Minh City

- Researched and implemented **Apache Kafka** to build a real-time data processing system.
- Developed backend for managing **Kafka Topics, Producers, and Consumer Groups**.
- Integrated **WebSocket** to transmit real-time data from the backend to the client.
- Designed the message processing flow for an **event-driven** system between producer and consumer.
- Deployed the development environment using **Docker** to support the testing and development process.

Technologies: Kafka, NestJS, WebSocket, Docker.

SKILLS

- **Programming Languages:** Java, JavaScript.
- **Backend:** Spring Boot, Spring Security, Spring Data JPA, NestJS (Node.js).
- **Frontend:** ReactJS, Vue 3, HTML5, CSS3, Tailwind CSS.
- **Database:** MySQL, PostgreSQL, MSSQL.
- **DevOps & Cloud:** Docker (Cơ bản), AWS (Lambda, API Gateway, S3, Cognito, CDK).
- **Tools & Others:** Git, GitHub, Postman, Apache Kafka, WebSocket.

PROJECTS

TICKETFLOW - Event Management and Ticketing System

09/2025 – 12/2025

- Built an online event management and ticketing platform.
- Developed features for event registration and electronic ticket management.
- Generated QR Code Tickets for event check-in.
- Deployed the system on **AWS Serverless Architecture**.

Technologies: React, AWS Serverless, AWS CDK (TypeScript).
